

Remember to keep SMART on the Internet

The Internet puts you in touch with the whole world - the good, as well as the potentially harmful. Make sure you remember these simple **smart rules to stay safe online.**

SECRET – Always keep your name, address, mobile phone number and password private - it's like giving out the keys to your home!

MEETING someone you have contacted in cyberspace can be dangerous. Only do so with your parent's/carer's permission, and then when they can be present.

ACCEPTING e-mails or opening files from people you don't really know or trust can get you into trouble - they may contain viruses or nasty messages.

REMEMBER someone online may be lying and not be who they say they are. Stick to the public areas in chat rooms and if you feel uncomfortable simply get out of there!

TELL your parent or teacher if someone or something makes you feel uncomfortable or worried.
